WALKTHROUGH: To view a step-by-step walkthrough, see [Setting Up Your Email in Mozilla Thunderbird](#). To play this walkthrough, you must download and install Macromedia Flash Player from [Macromedia](#).

You can set up and use Mozilla Thunderbird with your Webmail account, but before you set up your account in Thunderbird, you need to set your SMTP Relay options in your Account Manager.

To Set Your SMTP Relay Options

1. Log in to your [Account Manager](#).
2. In the **My Products** section, click **Email/Email Forwarding**.
3. Locate the account you want to set up and click **Setup Account**.
4. From the **Relays per Day** list, select the number of relays per day you want to use for the account.
5. Click **Save Settings**.

To Set Up Thunderbird with Your Email Account

NOTE: The following procedure is for Mozilla Thunderbird 1.5. You can also view a tutorial for [Setting up Thunderbird with Your Email Account](#).

1. In **Mozilla Thunderbird**, select **Tools > Account Settings**.
2. On the **New Account Setup** window, select **Email account** and click **Next**.
3. On the **Identity** window, in the **Your Name** field, enter your first and last name.
4. In the **E-mail Address** field, type your email address and click **Next**.
5. On the **Server Information** window, select **POP**.
6. In the **Incoming Server** field, enter the name of your incoming server, **pop.secureserver.net**.
7. In the **Outgoing Server** field, type **smtpout.secureserver.net** and click **Next**.
8. On the **User Names** window, in the **Incoming User Name** field, enter your user name (your full email address).

9. In the **Outgoing User Name** field, enter your user name (your full email address).
10. On the **Account Name** window, in the **Account Name** field, enter the name you would like to use for this account, for example "My Account" and click **Next**.
11. Verify that the information is correct and click **Finish**.
