## Foreword

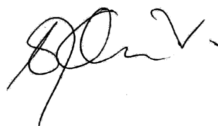

Professional bodies such as Coaches and Mentors of South Africa (COMENSA) have a critical role in quality assurance and standards development in the South Africa National Qualifications Framework (NQF) environment. Professional bodies, and the registration of their designations, contribute to strengthening social responsiveness and accountability within professions and promoting pride in association for all professions and occupations.

Redress is also a key imperative in the South African policy and regulatory environment. It is critical that perceptions of exclusionary practices be addressed upfront and that professions do not apply unjust policies and practices regarding who gains access to a profession.

COMENSA is proud to be working with the custodian of the NQF, the South African Qualifications Authority (SAQA) to make sure that all South Africans benefit from the professional development. This policy and criteria document allows for all public and training providers to support COMENSA in their role as a Professional Body by submitting their programmes to COMENSA for formal evaluation and possible approval within three specific categories.

Signed on this 23rd day of March 2022

Colleen Qvist  
Vice President
